Governor Arnold Schwarzenegger
State Capitol Building
Sacramento, CA 95814

Subject: Support for Greenhouse Gas Mitigation Actions

Dear Gov. Schwarzenegger,

I urge you and your administration to move forward expeditiously in implementing strategies to reduce greenhouse gas emissions in our State to meet the targets you set for reducing greenhouse gas emissions to 2000 levels by 2020, to 1990 levels by 2020 and to 80 percent below 1990 levels by 2050. The excellent work of your Climate Action Team deserves attention to the risks, opportunities and actions they document in their recent report to you and the Legislature.

California is uniquely positioned to take the lead on policies to address global warming. Two initial steps that should be adopted immediately are mandatory reporting of greenhouse gas emissions and initiatives to entice other states in our region to adopt greenhouse gas reduction programs, such as voluntary or mandatory registry functions, in cooperation with California. These actions can pave the path for necessary state, regional, and ultimately, federal caps on greenhouse gas emissions.

As a businessman with a history of developing business and jobs associated with energy efficiency, I offer proof of the opportunities for job growth and economic development that programs to reduce greenhouse gas emissions would unleash. I urge you to now take strong action to ensure that California's global warming targets are achieved.

Sincerely,

A handwritten signature in black ink, appearing to read 'S. Schiller', with a long horizontal line extending to the right.

Steven R. Schiller
President
